Cape Cod National Seashore 50th Anniversary!

Cape Cod's great Outer Beach has been protected since 1961, when President Kennedy signed legislation establishing Cape Cod National Seashore. Forty miles of pristine sandy beach, marshes, ponds,

and upland forests support diverse species of plants and animals. Lighthouses, cultural landscapes, and wild cranberry bogs offer a glimpse of

Cape Cod's past and continuing ways of life. Swimming beaches, waterways, and walking and biking trails provide recreational opportunities for today's visitors. As a unit of the U.S. National Park System, Cape Cod joins over 390 other sites that protect our nation's natural and cultural heritage for future generations.

The National Park Service, its partners, and local communities will be hosting events to commemorate the establishment of this remarkable park through December. Click here for all [info.](#)
